

AISD PERFORMING ARTS CENTER

Location: Austin, TX
Size: 33,600 sq ft

The AISD Performing Arts Center (PAC) is the first district-wide Fine Arts facility in the 134-year history of the Austin Independent School District, serving more than 84,000 K-12 students at 129 schools.

Glazing makes activity within visible from the street, and vice versa. The auditorium, which seats 1,200 people, can be tuned to the needs of any performance—from a full orchestra to a solo vocalist. The PAC also contains a 250-seat black box theater, dance studio, multipurpose room, and recording studio.

Compared to a baseline case study, the PAC achieves 23% less overall energy use; 100% less irrigation potable water use (via graywater recycling); and 33% less indoor potable water use. 44% of building materials were sourced within 500 miles, and the building contains 33% recycled content.
