

## QATAR FOUNDATION HEADQUARTERS (Unbuilt)

Location: Doha, Qatar  
Size: —

The innovative design proposed for the QF Expansion Building provides the Qatar Foundation with a unique, signature building whose memorable identity bridges the past, present and future of Qatar. Conceived using the most advanced sustainable principles, the building offers flexible and efficient office space that can comfortably accommodate 2,000 workers.

In addition, the scheme provides something unexpected: a park of almost 1.5 hectares for the enjoyment of employees and visitors alike—an oasis that also serves as an ideal setting for the display of a world class outdoor sculpture collection.

The most distinctive aspect of the QF Expansion Building exterior is the south façade and the wrap-around roof on the north side of the building. Both elements were inspired by the beautiful geometry of the square Kufic, a uniquely Muslim motif.
